Orion IXL clinches technical services deal from Sukaniaga

PETALING JAYA: Orion IXL Bhd's wholly owned subsidiary, Ganda Integrasi Sdn Bhd, has bagged a technical services contract from Sukaniaga Sdn Bhd for the development of online digital end-to-end solutions for a loan applications system.

Sukaniaga, a company in which Ganda Integrasi has 10% stake, has entered into a service level agreement with MyAngkasa Holdings Sdn Bhd for the development of the E-Angkasa Az-Zahara system.

The system provides online digital end-to-end solutions from the stage of the loan application to the loan approval process (fintech), including its operation and maintenance.

The scope of services includes cooperatives application system; e-Angkasa Intranet System; call centre system; system integration with the current system; and operation and maintenance for 15 years.

Ganda Integrasi will also build, operate and maintain the system for 15 years, for which it will be paid by Sukaniaga.

"This is an expansionary strategy of Orion to establish a new customer base as a technology company. It further enlarges the group's order book and is expected to provide a steady stream of revenue for the group over the next 15 years," its board of directors said.

Trading of the stock was halted from 4.18pm yesterday and will resume today.
