## **Angkasa Expands Its 'Change Starts With Me' Seminar**

PETALING JAYA, Sept 30 (Bernama) -- Malaysian National Cooperative Movement (Angkasa) will organise more 'Change Starts With Me' seminars among its members particularly the youth towards a world-class mindset.

Its president Datuk Abdul Fattah Abdullah said the seminar which incorporated new findings in human psychology had the potential to enhance leadership abilities in various aspects.

"Our main target are secondary school students - 90 per cent of them are school cooperative members; we organise the seminars at their schools in stages," he told reporters after opening one such seminar at Wisma Angkasa here today.

He said the seminar was also for officers and staff of Angkasa and its subsidiaries.

Currently, Angkasa serves as patron to 13,428 cooperatives nationwide, with a membership of about eight million.

He said the seminars conducted by Angkasa with the cooperation of a training company, RRC Worldwide Sdn Bhd, also supported the government's 2050 National Transformation (TN50) initiative.
