National greening initiative

KUALA LUMPUR: The National Cooperative Movement of Malaysia (Angkasa) is dedicated to enhancing Malaysia's national greening initiative and as part of this, they will install lighting along the Canopy Walk pathway at Taman Eko Rimba Kuala Lumpur (TERKL).

It is part of Angkasa's Corporate Social Responsibility (CSR) programme to cele-

brate the International Year of Cooperatives (IYC) 2025. It will be done with the Peninsular Malaysia Forestry Department and the Federal Territory Forestry Department.

Angkasa Board Member Datuk Kamarudin Ismail said the initiative supports the 2030 Sustainable Development Goals and the United Nations Decade on Ecosystem Restoration 2021-2030.
